

# 200 years building San Sebastian

San Sebastian, Spain

San Sebastian was host to a multimedia show commemorating the Bicentennial of the burning, destruction and reconstruction of the city during the Napoleonic Wars. A dramatization that combines 3D projections with light, music and special effects through the use of mapping techniques which was shown over the Town Hall façade in three daily shows.

**Date:**  
June 29-30 & July 1-2, 2013

**Client:**  
Town Hall of San Sebastian

The event, in remembrance of the 1813-2013 Bicentennial, entirely designed and produced by ACCIONA Producciones y Diseño in collaboration with the Town Hall of Donostia/San Sebastian, allowed the people from Donostia and tourists to understand the evolution of the city in the last 200 years, as well as show its cultural and historical legacy, in an especially attractive and entertaining way, highlighting the city's most valuable heritage: the enterprising and fighting character of its citizens.

Such a spectacular staging required 8 projectors with 22,000 lumens each, a 4,000- pixel quality image and 60,000 watts of sound.
