

Mexico, the UN, Turkey and Tunisia Pavilions

Expo Lisbon 1998, Portugal

ACCIONA Producciones y Diseño was the official consultant for the authorities during the Expo'98 for the development and operation of shows. Likewise, it was in charge of the development, execution and installation of the exhibition contents for the Pavilions of Mexico, Turkey, the United Nations and Tunisia and carried out their technical operation during the entire period of the Expo.

The Pavilion of Turkey was conceived as a "turn-key" project, where APD carried out the design, project development, surveying, construction, installation and programming of all the decorative elements, sound, lighting and audiovisuals. The pavilion won the "Top Three National Pavilions" award and was also the most visited pavilion.

For the Pavilion of Mexico, APD carried out the construction and installation of all of the decorative contents. The pavilion won the prize as one of the best national pavilions.

For the Pavilion of the United Nations, APD did the construction and installation of the exhibition contents.

For the Pavilion of Tunisia, the company carried out the design, construction and installation of the contents, graphics and audiovisuals.
