

THEME PARK

# Kidzania

Lisbon, Portugal

Kidzania is a center providing entertainment, fun and child education where a city is recreated in miniature -on a child's scale- with buildings, shops, streets and vehicles for transportation.

Located in the commercial center Dolce Vita Tejo, in Lisbon, it occupies a surface area of 4,800 m<sup>2</sup> in which a city's most representative establishments are constructed: a hospital, supermarket, beauty salon, theater, factories, a discoteque, restaurants, libraries, recreation areas, a park, etc.

ACCIONA Producciones y Diseño carried out the complete recreation of these areas, the interiors as well as the exteriors, exactly reproducing the forms, textures and colors by means of different materials and construction techniques.
